CAPT. ROBERT PRIOR GETS FLYING CROSS

Miami, Fla., May 5—Not too many days ago, three ATC pilots in widely scattered theaters of operations were sweating out trips home. Today, almost to their own surprise, they were a long step nearer home. Flown here transoceanic fleet TC transports they were clearing Air Transport Command's Miami Army Air Field enroute to their homes.

The long trip here from India as a passenger, was a "milk run" for Capt. Robert C. Prior, 2922 Latona St., because he's been flying over "The Hump" and the lethal peaked Himalayas for the last nine months. One of the toughest flights he recalled was the successful delivery of vital cargo to China on his birthday, last Jan. 6. "Over the Hump the way was bad," said Captain Prior, "but the flight through thunderstorms and ice to get through. Some ships didn't make it."

Prior flew 80 missions for 650 combat flying hours in the unarmed C-47 "Cargo Connie" named for his wife, Mrs. Constance C. Prior. The ATC pilot was awarded the Distinguished Flying Cross and the Air Medal.

A gas station manager in civil life, he is the son of Mrs. Pearl Prior, of 108 Plant Ave., Elba, Ala.

Roosevelt's Appeal for 7th War Loan

WASHINGTON, D. C.—Before his death President Franklin D. Roosevelt issued a statement in support of the 7th War Loan.

The President stressed the importance of greater production together with the buying and holding of War Bonds to help achieve the victory.

"I don't need to tell you that we are still locked in a deadly struggle with our enemies—the enemies of our way of life—and the war is still the chief job of each one of us. The greatest production of which we are capable, faithful adherence to regulations that make it possible to supply our boys in battle with everything they need, and buying and holding War Bonds—these are things we at home must do to speed victory."

"In the past three years more than 85 million Americans have invested billions of dollars in bonds. Never before have so many people held such a direct share in a great national effort. To save—to buy and hold—has been our war bond—this is a small service to ask of us who do not fight—it is one of the biggest things we can do for our fighting men."

The South Alabama Electric Cooperative, Petitioner, and the Government, acting through the Administrator of the Rural Electrification Administration, have heretofore entered into a certain Amending Loan Contract, dated as of June 24, 1940, which provides for an increase in the aggregate amount of such loans not to exceed \$841,350.00, evidenced by notes, should be expended, and propose to enter into a certain Amending Loan Contract, providing for an increase in the aggregate amount of such loans not to exceed \$845,000.00, with which to finance the operation of additional electric trans-

mission, distribution and service lines or systems in rural areas in the Counties of Coffee, Covington, Crenshaw and Pike, all in the State of Alabama.

Any person having an interest in the matter may attend the hearing and be heard on the question as to whether the issuance of said note for the purposes above stated serves a public need and is in the public interest.
